(Bobby George - Vern Stovall)

When I'm walking all alone  
Something guides my footsteps wrong  
And like so many times before  
I'll always wind up right back at your door.

But I just bow my head and turn away  
You don't love me you'd never let me stay  
Though I know you'll turn me down once more  
I'll always wind up right back at your door.

--- Instrumental ---

I got to bed but I can't sleep  
And soon I'm walking down a lonely street  
I walk till sometime's three or four  
And always wind up right back at your door.

But I just bow my head and turn away  
You don't love me you'd never let me stay  
Though I know you'll turn me down once more  
I'll always wind up right back at your door...
