(Paul Williams)

When you embrace her in a fond caress
And kiss the lips of Miss Loneliness
Think of me she's my mem'ry think of me
Though you just met her before you loved her
You'd be much better off just forget her
Think of me she's my heartache think of me.

When you're poor old unhappy heart starts to break
You'll do all the giving all she'll do is take
And when you get weak enough to start giving up
Think of me she's my mem'ry think of me.

--- Instrumental ---

When things get hopeless you'll get helpless and she'll
just walk all over you
Think of me when you get stepped on think of me
I guess you think I'm a jealous fool she'll work me over
like she'll do you
Think of me she's my mem'ry think of me.

When you're poor old unhappy heart starts to break
You'll do all the giving all she'll do is take
And when you get weak enough to start giving up
Think of me she's my mem'ry think of me...
