(Autry Inman)

My baby flirts and walks the streets  
Of the town that never sleeps  
She knows it hurts that I'm complete  
With the town that never sleeps.

Sometimes I follow her all night  
To be sure that she's all right  
Some things she's done have made me weep  
In the town in the town that never sleeps.

The lights that glitter in the night  
Fill her needs and bring delight  
Her life could never be complete  
Without a town that never sleep.

Sometimes I follow her all night  
To be sure that she's all right  
Some things she's done have made me weep  
In the town in the town that never sleeps.

In the town in the town that never sleeps...
