If it grooves - it grooves, it just might do
Gets you high - gets you moving
All aboard the S.S. Attitude
If it booms - it booms, it takes you to
Some place safe - some place new
So welcome to the Hotel Deja Vu

And it made me feel, made you feel famous
If only the shower ever knew
And it changes me changes you, O'
Yes, I remember

CHORUS:

When Video Killed the Radio
We had a Heart-shaped Box and Counting Crows
And every Greenday started with all My Heroes

If it's smooth - it's smooth, it just can't lose
Trust in me - trust in you
And take a right at Blue Sky Avenue

CHORUS 2:

When Video Killed the Radio
We had a Heart-shaped Box and Counting Crows
And every Greenday started with all My Heroes
We had Three MCs and One DJ
We had to Rage Against in a House of Pain
But I wish Destiny would just Say My Name

Life is all a catchy tune
Thrillers live as Thrillers do
There's no way - no other way
Life is all a melody
Hovering and ever free
There's no way - no other way

CHORUS
