Way down in Sad Town in the valley of broken dreams  
We're both prisoners of past loves & things that'll never  
be  
Somethin' tells me if you held me, the clouds would  
disappear  
We could leave our troubles all behind & nothin' could  
keep us here

(Chorus:)

We could soar like an eagle, touch the sky like a dove  
We could fly to the top of the world, fly into love  
Fly into love

Sunshine all the time is just beyond the hill  
True love is waiting there & we can find it still  
Your blue eyes are my blue skies, forever is in sight  
Let's put our dreams together now & fly away tonight

(Chorus)
