I don't know if it's right; I did it by ear :)

We dance alone tonight because  
We dance to a different disco honey

Honey forgive me for I have sinned  
And I don't believe in you so  
We murder this dance floor  
because we're all done for  
We dance to a differnt disco

And I lie awake at night  
Just hoping to make you shiver  
I'll be your disaster  
Forever and after  
So cry me a fucking river  
And I'll be just fine  
I'll bet you say that to all the boys

We dance alone tonight because  
We dance to a different disco honey  
And now you know that we'll never fall in love  
We dance to a different disco honey

Honey I'll shoot down the moon for you  
I love every word you've spoken  
I know that you miss me  
So shut up and kiss me  
Living la vida loca  
And I'll be just fine  
I'll be you say that to all the boys

Is this what you've been waiting for  
We dance alone tonight because  
We dance to a different disco honey

And now you know that we'll never fall in love  
We dance to a different disco honey

Our lips collide with such force  
We dance to a different disco honey  
And now you know that we'll never fall in love

We dance to a different disco honey

We dance to a different disco  
We dance to a different disco honey  
Boom

How we never say we slip slip slip woah  
We'll be working for the kiss kiss kiss woah  
And I never said I miss miss miss woah  
And we'll be dancing to a different disco honey

We dance alone tonight because  
We dance to a different disco honey  
And now you know that we'll never fall in love  
We dance to a different disco honey

We dance alone tonight because  
We dance to a different disco honey  
And now you know that we'll never fall in love  
We dance to a different disco honey

We dance to a different disc oh  
We dance to a different disc oh oh  
We dance to a different disco honey
