I've been lookin' for you  
Why do I love you like I do?  
My Woman  
Lemon pledged and Massingill douched  
I bet you glow in the dark

There is no danger when you're a light bright lady  
A safety against a black black fog  
I see no terror in your unscathed pink flesh

See the terror in me Blond Venus?  
Well I sure as hell wonder if you do  
I sure as hell wonder if you do

I've got my razors and my bleach  
My photographs for the tub  
Now tell me  
White tiles and pale blue eyes  
How many times do you bath?

I'm seeing mirrors kissing mirrors  
Wanting you  
And I know all the men who scrawl you name on their  
chest

Scrawl a name for me Blond Venus  
My my you're such a big bad blond  
Oh my my you're such a big bad blond

You've got your cherry lips to help you smile  
And I wish that my burnt brown fingers had the  
Midas touch  
So they could defecate 'cross your clean slate  
Now darlin' would you  
Care to look like me, Blond Venus?  
As I change myself to look like you?
