I can not help it ,couldnt stop it if i tried

the same old heart beat, theres an emptyness i have  
inside

and i heard that you cant fight love so i wont complain

coz why would i stop the fire that keeps me goin on

(chorus)

coz when theres you i feel

whole and theres no better feelin in the world,

without you im alone and id rather be in love

with you

turn out the lights now to see is to beleive i just want  
you

near me, i just want you here with me

and i give up everything only for you

its the least that i could do

(chorus)

and when theres you (when theres you)i feel

whole ( i feel whole) and theres no (noooooooo) better  
feelin in the world,

without you (without you) im alone (im all alone) and id  
rather be in love

with you,id rather be in love with you.....

and i feel you holding me
