Verse 1:

I have a new girl, she's not from here
She points to the sky and says out there
When she dances stars fall from her hair
And when we hug she tells me to share
And she sings...

Chorus:

There are no wars there, baby, and there's
No poverty
There's only love in my galaxy

Verse 2:

She takes my hand and says we'll travel far
And we'll get there fast in her rocket car
On the way she'll show me Jupiter and Mars
And then we'll stop to dance among the stars
And she sings...

Chorus:

There are no wars there, baby, and there's
No poverty
There's only love in my galaxy

Break:

I want that girl can't you see
I need that girl with me
I need that girl and her galaxy

Verse 3:

She says that love is a lighted cosmic sign
That when touched causes all of us to shine
Through the universe, across a distant sea
This girl is the only one for me
And she sings...

Chorus:

There are no wars there, baby, and there's
No poverty
There's only love in my galaxy

Chorus:
