There is no difference between dreams and  
nightmares, when you can't sleep. Well...  
I need your pain.  
Oh Marla, I hate you whore!

Someday I will separate myself from you.  
You're the worst thing that ever happened to me.  
Worst thing ever happened.

I felt like destroying something beautiful.  
I felt like destroying something beautiful.  
Friends kill loneliness, but only if they're real.  
Friends kill loneliness, but not ones you lead.

No! No place to hide!  
Oh, I've been watching you smile but since I'm gone I'm  
watching you die.  
Oh, I've been watching you smile but since I'm gone I'm  
watching you die.

Oh, I've been watching you smile but since I'm gone I'm  
watching you die...  
I felt like destroying something beautiful.  
I felt like destroying something beautiful.  
Screw you whore!  
Screw you whore!
