"2PM"

It's 2PM I don't wanna wait for night

It's all the same we can make it feel so right

Let's the play a game, you come over bring the wine

You're on my brain, I don't wanna wait for night

It's party time some-where on the globe
And we don't have to wait for the moon to show
I'll grab your hand and twirl you round - all the same
Be it day or night - or 2:PM

It's 2PM I just gotta see you now
You're on my brain, let's get you off somehow
Put on that dress and come knocking at my door
Afternoon delight, who could ask for more
