This DJ takes me back
To where we fell in love
He played our favorite song
We couldn't get enough

And we both would dance
Until the sun came up
We were both so young and in love

And so I spun to the right side
Kissed your hand and kept it in mine
Spun you back into the left - dipped you back - and held
you so tight

Pull your body closer to me
Feel me breath as you step through me
I see your eye singing to me

KITNA PYAR Karun me thumse, karun me kahedo kitna
pyar

Oh baby take me back

To where we fell in love
Underneath the stars
That filled the sky above

Where we both would dance
We fit like a glove
Just a sweet romance
Between the beat and us

And so I spun to the right side
Kissed your hand and kept it in mine
Spun you back into the left - dipped you back - and held
you so tight

Pull your body closer to me
Feel my breath as you step through me
I see your eyes saying to me
