I do remember
Like a punch in the face
I never felt so alive since 19, 1999
The time that we got it all out

How can I forget the nights we killed?
Every summer night, you know
The sun never sets around here
That is what we wait for all year

Your band came to town
I was too young to know
You were younger than I'm now in 1980, 83
You came on with a black eye

Look behind you, the raft
You closed your eyes
You shot us in high states
To fall, fall, far behind
Get them out of your mind

This is who I am or was and always be
No, Richard, know the truth, what else
No living legend always been
Someone is corrected
Relying till defected

I'm not complaining
That I'm not making it easy
I think you'll understand
I never want this to end
And I have kept my promises

How can I forget shaking every memory?
Looking back when
The sun never set around here
And we waited all year

This is who I am or was and always be
No, Richard, know the truth, what else
No living legend always been
Someone is corrected

Relying till defected

Oh, Richard, no, oh, oh, same old
Living legend, no, oh
Never been so close before

And what they say's not always right
And, Richard, know you know what's right
And they think that you're living dead
Somehow, somehow

Oh Richard, no, oh, same old
Living legend, no, oh
Never been so close before
