### "Devastating Bones"

Visit "[Devastating Bones](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Such flashes are threatening the heart, son  
I feel safer sound with your skeleton  
A few last years have been welcomed  
Pretty mind if I touched your...  
They tested the nerves of your ear lobes  
To find out the way...  
My sharpness of mind... your elbows  
I think it's my time on your...

Chorus:

Even if your joints have a weakness  
I think you might need those knees for kneeling  
Even if your joints have a weakness  
I think you might need those knees for kneeling  
You've got devastating bones, and I'd like to call them  
home  
I think you might need those knees for kneeling  
You've got devastating bones, and I'd like to call them  
home  
I think you might need those knees for kneeling  
I think you might need those knees for kneeling

So just as we're wrestling the deeper  
If the forecast... it's just common sense  
I did a lot tears... weeping  
But your next... it's magnificent  
The way that I play on your... cage  
... of the savage age  
... my shoulder blades

Chorus:

Even if your joints have a weakness  
I think you might need those knees for kneeling  
Even if your joints have a weakness  
I think you might need those knees for kneeling  
You've got devastating bones, and I'd like to call them  
home  
I think you might need those knees for kneeling  
You've got devastating bones, and I'd like to call them  
home  
I think you might need those knees for kneeling

I think you might need those knees for kneeling

I've got... in your free will

I've seen you're stubborn, I've seen you're stubborn

You're quite adventurous if you just can't...

We all still let him, we all still let him

I've got zero faith in your free world

I've seen you're stubborn, I've seen you're stubborn

... quite a picture if you just can't...

You're still learning, you're still learning...

It's certainly not your...

Chorus:

Even if your joints have a weakness

I think you might need those knees for kneeling

Even if your joints have a weakness

I think you might need those knees for kneeling

You've got devastating bones, and I'd like to call them  
home

I think you might need those knees for kneeling

You've got devastating bones, and I'd like to call them  
home

I think you might need those knees for kneeling

I think you might need those knees for kneeling
