I left it too long  
But don't ask me why  
Now that you are gone  
I need to know that you're alright

And summer has gone  
The sun's up in the sky  
Maybe I loved you  
Maybe I'll miss you tonight

Remember when we used to be free  
Free and easy like a summer breeze  
Now it's complicated  
And you don't wanna be here  
You don't wanna be here with me

Now I know I've gone pretend  
That we're alright  
It's complicated  
My lust for you I think I break it

I left it too long  
But don't ask me why  
Now that you are gone  
I need to know that you're alright

And summer has gone  
The sun's up in the sky  
And maybe I loved you  
Maybe I'll miss you tonight

Everything I wanted to be  
Found myself feel the good bantry  
It's complicated  
And you don't wanna be here  
You don't wanna be here with me

Every time I think of you  
I look to the sky  
It's complicated  
My lust for you, my lust for you

And only you

I left it too long  
But don't ask me why  
Now that you are gone  
I need to know that you're alright

And summer has gone  
The sun's up in the sky  
And maybe I loved you  
Maybe I'll miss you tonight

Maybe I'll miss you tonight [x8]

I left it too long  
But don't ask me why  
Now that you are gone  
I need to know that you're alright

And summer has gone  
The sun's up in the sky  
And maybe I loved you  
Maybe I'll miss you tonight
