Go out with the boys, I said I'll be alright Mama,
She'll never let me go to far.
The man on the stage plays a way out piano,
My brother's sitting in on guitar.
Shifty in the corner says, "For heaven's sake - you drive
that girl to far".

She was a '68 teenage queen,
The prettiest girl I've ever seen,
A movie star in a great big car,
A '68 teenage queen.

A man comes over, looking like a robber,
She'll never let me go to far.
Keep outta trouble, don't burst your bubble,
She'll never let me drive her car.
Shifty in the corner says, "For heaven's sake - you drive
that girl to far".

She was a '68 teenage queen,
The prettiest girl I've ever seen,
A movie star in a great big car.
A '68 teenage queen.
