Intro:

I don't know what I have to say to you (ooh)
I try and still I can't get through (ooh)

Verse 1:

Every other day you've got another game to play
But oh, you're running low on second chances.
The pressure's building fast and I don't think I'm gonna
last
Snowballs are rolling into avalanches.

Loving you feels like a crime
Can't get your secrets off my mind
Why do I let you waste my time?

Verse 2:

And you don't want her to hurt, so you just go and
make it worse
And then you lie lie lie 'til you're face down
And you look to me to as if you only need me to forgive
you
But it turns out you just wanna keep sneaking around

Chorus:

And you tell me
You can hear me
But can you feel me
Are you with me?
Let's show the world what we can do
Oh just come clean
Oh just come clean

Intro 2

Trapped in the middle of my conscience and my love
Your double life has left me no where else to run

Verse 3:

All the teeny tiny holes that are poking in your soul
Are gonna come around soon to haunt you.
And then you're gonna have to fess up, talkin' how you
messed up

No matter if you really don't want to.

I stand beside you not your lies
The time has come to pick a side
Why do you want to make me hide?

Verse 4:

Every dog has his day every woman has her way
Of finding out what she don't want to know.
There's always one loose end, one where, what, when
Then the big black lie's got nowhere else to go.
