#### Verse 1:

She threw him out six months ago  
Of their forgotten, rotten home  
The chemical queen of her country  
And she was known as this all around  
Given her heart too many times  
Now she'd just switch from guy to guy  
Numbing her soul was her savior  
But it was all a lie  
So will she learn before her chance is over?  
Face to face reflections shine the truth  
Just burn away the smoke will be your cover  
But running doesn't hide a heart that's bruised  
Oh no no

#### Chorus:

As predicted  
She's not listening  
She's addicted  
Gotta get her fix tonight  
Oh they warned her  
How he'd harm her heart  
Right from the start  
But she pushed that thought aside  
I felt this love was forever  
The way he looked in my eyes  
He's playing games now it's over  
Got another girl on the side  
I can't make you love me  
I can't make you love me right  
I can't make you love me

#### Verse 2:

Next week she's back with him again  
Praying to lose she'll never win  
Little Miss Stubborn don't get it  
She's just as clueless as before  
Pushed him away in fear of pain  
Wouldn't give love a chance again  
The damage was done  
It was too late

She keeps making the same mistakes  
So will she learn before her chance is over?  
Face to face reflections shine the truth  
Just burn away the smoke will be your cover  
But running doesn't hide a heart that's bruised  
Oh no no

Chorus:

I can't make you love me right (x4)
