

Sick Of Society

"Rise Up"

Visit "[Rise Up](#)" on MotoLyrics.com

When the world's got you down
And there is nowhere to turn
You can count on me
And we can both burn
We can rot in hell
How bad can it be? When it feels like hell
Is all around me!

You know the feeling
You know how it is
We are in this together
Trying to live
Trying to strive for the life we want
But this hell of a world
Is keeping us down

Chorus 2x:
Government controls all that we know
Rise up (2x)
Time to start taking control

What is there it loose?
What is there to gain?
How will you die? Without taking a stand?
Another statistic the American plan
I'll put you through agony
And feel no regrets
Ride or die motherfucker
And that's all that is left
That is all that's left!

Chorus
Break
Chorus
