I just walked in, I see your eyes  
But then you looked into my eyes  
Before we even say hello  
I fall in love with you I know

But never thought you could see  
The guy that lies beneath my feet  
You're the type of girl I need  
Oh baby please

Now we go on before we even say goodbye  
I know good times past but future lasts for life

I know why oh I will remember the girl in the green  
green dress  
I know why oh I will remember the girl in the green  
green dress

I never thought the day would come  
When you lie beneath me and share the love I've felt  
for so long  
And now we go on before we even say goodbye  
I know good times past but future lasts for life

I know why oh I will remember the girl in the green  
green dress  
I know why oh I will remember the girl in the green  
green dress

Oh I the green green dress (yeah)

Now we go on, for we even say goodbye  
Know good times past, but future lasts for life
