"Deliverance"

Visit "[Deliverance](#)" on MotoLyrics.com

Jesus, deliver us from our selfishness
It's roots are twisting up into our hearts
Worst of all, there seems to be no cure for this
I feel, my God, that I may come apart
The Jesus that we're shouting in our neighbors' face
Looks nothing like the Jesus that you are

Heavy is the soul that I've been carrying
So I am forever giving of my source
Take from me this weight that I could never bear
And I will follow you forevermore

Jesus, deliver us from our flags and oaths
The things that we believe will set us free
The fabric country system or a man and his land
I'm afraid these things get no respect from me

Heavy is the soul that I've been carrying
So I am forever giving of my source
Take from me this weight that I could never bear
And I will follow you forevermore

Heavy is the soul that I've been carrying
So I am forever giving of my source
Take from me this weight that I could never bear
And I will follow you forevermore

Jesus, deliver us from our raging pride
The things that we say we do in your name
With all our vengeance votes and picket signs and
guns
We put the love you came to bring to shame
