Money are made, pockets can't break
Pop champagne, everything's straight
First class trips, high class chicks
Men selling cars, high price whipped.

We ball so hard in the shopping mall,
Price tags, we never look it up
Pay cash or check or credit card
It don't matter, dog, 'cause we got it all.

We do it big, never small,
And don't speak too much, 'cause when it talks
So go check your atlas
Used to be staying at the Palm's Atlantis
Smoking sheeshu and heeshu
Mam', Stacy, Alicia, Tracy, Teresa
Turning all the time a word to believe.

Let's go
If it ain't about money, it don't make sense
If it ain't about money, it don't make sense
If it ain't about money, it don't make sense
And I'm just trying to get me some of the presidents.
And go like money, money, money, money
We be getting money, money, money, money
We be getting money, money, money, money
We be getting money, money, money, money
Uh, yeah.(x2)

Amanama, nama, nama, nama...

Yes, you should be very impressed,
When I put up at the sea in my private jet
Million dollar wrist wear, I never stress
Spending money, 'cause every other day I collect.

I have more money than we got palm trees
Cash days in my pocket like car keys
Can't keep these model chicks on me
Rolls Royce, Lamborghini and Ferrari
I carry my chicks in these

They're all living it good, getting whatever they need
I say to prepare, that's why I put them in the street
I got money like that, yes indeed.
I have to shut them all down, 'cause we owned it.
If you wanna do it big, look at how we're rolling
We got an AB made out of gold
And it does what it told you to go down

Let's go
If it ain't about money, it don't make sense
If it ain't about money, it don't make sense
If it ain't about money, it don't make sense
And I'm just trying to get me some of the presidents.
And go like money, money, money, money
We be getting money, money, money, money
We be getting money, money, money, money
We be getting money, money, money, money
Uh, yeah.(x2)
