How could you know
You've been happy?
You've been so lost
It's been so long
Now that you know
You've got a wicked thing to do
And get happy
And get happy

After all you want to
Even though it sets you free
Not me, not me
After all you want to
Even though it sets you free
Not me, not me

Once in while
Get inside me
You'll feel so off
You'll get right off
What should you do?
You've got a vicious thing to do
To get happy
To get happy

After all you want to
Even though it sets you free
Not me
Not me

After all you want to
Even though it sets you free
Not me
Not me
