Looking for the things you want but you cant find
Or are you searching for a reason
Reason makes you blind.
Youve got a partial stimulation drifting off your mind,
Youve got to picture your own vision,
See what youve become

You gotta turnaround,
And if the rumors are true you wont back down.
Think about all the people,
You think about all the people

Looking back at things youve blacked out, thrown away
You try to leave out all the fiction,
Pain is in your way
You ran a mental correlation picking out the signs,
You gotta make a new decision,
Are you out of time?

You gotta turnaround,
And if the rumors are true you wont back down.
Think about all the people,
You think about all the people

You gotta turnaround,
And if the rumors are true you wont back down.
Think about all the people,
You think about all the people
