Demons surround me all the time

[Bizzy - repeat 2X]

Demons surround me all the time

Demons surround me all the time

Now pick up your psychic line

Now pick up your psychic line

[Bizzy]

Nobody believes

Nobody believes

Nobody believes me, even my baby girl

See I was raised up on that ouija in my crazy world

Better take it easy

[Sang] Outta my mind, outta my mind

outta my mind, outta my brains, brains

7th Sign time, in a line, shine, fin to bye-bye, die die,

bang bang

Hit 'em with that woo-woo, and that flip-flop flown-n-low

Steady as we roll

Maybe you don't know, oh

Get away for safety, in a coma like state, invade me

Everyone say: "Hey, hey, he's crazy"

Premenitions, kick pushin' daisies

Wait, they chase to slay me

Paranoid, mortal to the paranormal, jumpin' out portals.

Kinetical energy formal in the global get warmer

Mormons may mourn, may Messiahs be born, torn in

the purgatory

Sworn to violence, silence, word my bond

Get ya story on, call me, saw me in the army gatherin'

in harmony

Hardly in all we be so salty

[Chorus]

Demons surround me all the time

Demons surround me all the time

Now pick up your psychic line

Now pick up your psychic line

[Bizzy]

Talk to the walkin' dead, crossroads, call on the Rev.,  
lost souls  
And I'm off in a coffin' tossin' my memoirs, oh no  
In the closet, come open the door, what do you see?  
A funeral  
Usually closest to kosher 'til I see some loved ones,  
don't go  
Get it crucial, pick up the psychic line  
Future to before time in the sinister mind of spiritual  
wicked  
Intertwined with weak souls, come kick it  
Written, rewind, get it, look out, hit it, rise  
Dig it, wig out, feel it, ride  
Mimic, die  
Nigga, fly  
Boom bye-bye.  
My kind in time, 7th Sign, 7th Sign (7th Sign)  
Time after time get mine, gon' get mine  
Pick up the phone line, pick up the phone line,  
ready for truth on the loose?  
Got a dime or two and I'm liable to tell you, only if you  
know, wooh  
He flew right bye you, true  
demons follow and resume from the womb in the tomb  
I fool you, boom, boom, boom  
B-b-b-boom, boom, boom, boom, boom, boom

[Bizzy - repeat 5X]  
Demons surround me all the time
