I'm on my way  
And headed straight for the door  
Another day  
Just like a hundred before  
And I can't help but tell You  
All I'm thankful for  
I'm waking  
I'm making it through holding on to my faith  
I'm loving  
I'm living surrounded by Your grace  
Whoa these good things  
Whoa these good things  
Oh, You give them to me  
Whoa these good things  
I've seen the sun light up  
The darkest night  
Just like the way  
You came and brightened my life  
Constantly blessing me  
And I can't help but say  
When I think about Your ways  
And the wonder of Your love  
I am amazed
