"Hold On To Love"

Visit "[Hold On To Love](#)" on MotoLyrics.com

We have our moments
Some are better than the rest
And sometimes our devotion
Gets put to the test
But we can stay together
Through the darkest times
If we decide that love's
The anchor of our lives
Hold on to Love
'Cause it's the only thing worth holding on to
Hold on to Love
And when it's all been said and done
We'll find that Love's the One
That's holding on to us
I say I need you
And you say you need me too
But if our hearts get torn
There's mending we must do
'Cause we can't take for granted
The love we've come to know
We've got to fan the flame
If it's ever gonna grow
