I've got the joy of the Lord  
Flowing over in my soul  
I've got the joy of the Lord  
Bringing me peace  
There is no shadow of doubt  
That His love can't cast out  
I've got the joy of the Lord  
Living in me  
Circumstance can break a man  
Or set that same man free  
I have learned I must be content  
With what You have planned for me  
Like Paul, I guess I'm sayin'  
I'm gonna keep on prayin'  
That everyone can see  
Sand inside an hourglass  
Has nowhere else to go  
And like that sand  
I'm just plain useless  
If I don't let the whole world know  
That Jesus in His precious love  
Gave His life and that's enough  
To plant a seed of hope and watch it grow
