I would sleep without dreams and know everything  
As death finds us breathing and all but believing  
We sleep and we dream in the arms of the sea  
Drowning in days

Ungrateful, the lifeless, the ocean held in sway  
Torrential, a creature but for faith  
As we breathe in and lash out a juggernaut of days  
Release us unto death, oh release us this age

Plunge us into the deep, left anchored with dreams  
As death finds us pleading for all we believed in  
We breathe in the sea and our lungs feel deceived  
'Cause the drowning can't leave

Ungrateful, the lifeless, the ocean held in sway  
Torrential, a creature but for faith  
As we breathe in and lash out a juggernaut of days  
Release us unto death, oh release us this age

Count our lungs deceived  
(Plunge us into the deep)  
The drowning cannot leave  
(Take our breath away)

Count our lungs deceived  
(Plunge us into the deep)  
The drowning cannot leave  
(Take our breath away)

Ungrateful, the lifeless, the ocean held in sway  
Torrential, a creature but for faith  
As we breathe in and lash out a juggernaut of days  
Release us unto death, oh release us this age
