The sky may fall and stars crash down
Trees cut down
Seeds kept safe beneath the ground
But they can't take away my hope.

A dammed river doesn't run free
Stopped by a box made of greed
But they can't take away my hope.
My hope can't take away my hope

Let the sky open up
Let the rain crush these dams
Let the thunder awaken me
Please hope descend on me

Pollutants choking up my soul
Head so dizzy spun out of control
Take a deep breath to soften the toll
But they can't take away my hope.
My hope

Let the sky open up
Let the rain crush these dams
Let the thunder awaken me
Please hope descend on me

Let the sky open up
Let the rain crush these dams
Let the thunder awaken me
Please hope descend on me

Enslave nations forced on plantations forced on
reservations
Stolen generations commit genocide
Atrocities beyond belief but you can't take away my
hope
My hope can't take away my hope
My hope
