Are you in there anywhere?
Trapped inside your head
Is the you we knew alive
Or just better off dead?
One more pill, could it hurt?
The damage was done long before
Who's counting after thousands?
What's the harm in wanting more?

I don't need rehab
I don't need it that bad
I don't need rehab
Oh, oh, where you gonna go?
Where you gonna go?

Just another haven, another secret stash
What a little bro, way to go
Blowing all your cash
I think you'd be better off fucking your nose
Getting your shades with the tourniquet
And let the glory fade
Oh, oh, where you gonna go?
Where you gonna go?

I don't need rehab
I don't need it that bad
I don't need rehab
Oh, oh, where you gonna go?
Where you gonna go?

Down so low, where you gonna go?
Down so low, where you gonna go?
I don't need rehab
I don't need it that bad
I don't need rehab
I don't need it that bad
