Throw your hands up if you know that you a star
you better stand up if you no just who you are
never give up, never say down
the power, the power

Throw your hands up if you know that you a star
you better stand up if you no just who you are
never give up, cause you've come to far
the power, the power

i made mistakes before
but i know i'm not perfect
it's ok cause who could ever be
as long as i did my best
it wont no matter what no one sez
cause you doubtin my mind
got the power to make it all happen

Throw your hands up if you know that you a star
you better stand up if you no just who you are
never give up, never say die
the power, the power

at time i may just feel like
my back is to the wall
but i hold my head up high
and keep standing tall
i no that my back is covered
because we have each other
and were down for whatever
if you hear me

Throw your hands up if you know that you a star
you better stand up if you no just who you are
never give up, never say die
the power, the power

Sometimes life may get you down
but you better watch your ground
cant nobody live your life but you
stay true know who you are

always follow your heart

Throw your hands up if you know that you a star
you better stand up if you no just who you are
never give up, cause you've come to far
the power, the power
