Waves crashing on a distant beach
You really don't know what you mean
Tides soaking up between our feet

I'll be your core, don't you doubt it anymore
I'll be your core, don't you doubt it
Won't be like before when I was such a bore
I'll be your core, don't you doubt it
Tell me what and tell me when
I'll show you how and I'll show you then
I'll be your core, don't you doubt it
Don't you doubt it, doubt it

Take everything away from me
You really don't know what you need
If you could only really see

I'll be your core, don't you doubt it anymore
I'll be your core, don't you doubt it
Take me to the shore back at North Buck in '94
I'll be your core, don't you doubt it
Tell me what and tell me when
I'll show you how and I'll show you then
I'll be your core, don't you doubt it

I'll be your core, don't you doubt it anymore
I'll be your core, don't you doubt it
Don't you doubt it, doubt it
