

## Checks, The "Don't Wait"

Visit "[Don't Wait](#)" on MotoLyrics.com

Don't wait for things to come to your soul  
The wrong direction is better than no direction at all

We don't find it terribly easy  
To dedicate out lives to love

And all the little children are staring at the sun  
And all the little women are waiting for their love

Stay still you're movie like a living thrill  
Wait on your dancing like my favourite song

We don't find it terribly easy  
To dedicate our lives to love

And all the little children are staring at the sun  
And all the little women are waiting for their love
