We know diamonds made money for the stars
But the way things are going
Must be working for Ma

Take you pick and grab a grasp
Because the fastest runner could finish last

We are tired from sleeping
Tired from sleeping here

She falls asleep with gum in her mouth
Buy you don't give a damn when you're that far south

Money drops and clocks spin past
And it makes us think we must learn fast

We are tired from sleeping
Tired from sleeping here
