You never cease to show
That missing self-control
Nothing stops your unbelievable taste for bull shit and
lies!

I'm not going to criticize
You're the one who needs advice
Fuck off and find yourself some respect behind your
mask!

Look at the mirror and pray, you will feel no more
Stop bringing your hate, you're a frustration wall
Poisoned words from your mouth, you will feel no more
Life will take you, life will take you down!
Will take you down!
Will take you down!
Will take you down!

No one believes in you
You failed to put me through
I a rollercoaster full of threats, you fucking liar you are
The truth is on my side
Take your demency home
Inside your home of psycho minds you never really
learn!

Look at the mirror and pray, you will feel no more
Stop bringing your hate, you're a frustration wall
Poisoned words from your mouth, you will feel no more
Life will take you, life will take you down!

Look at the mirror and pray, you will feel no more
Stop bringing your hate, you're a frustration wall
Poisoned words from your mouth, you will feel no more
Life will take you, life will take you down!

Look at the mirror and pray, will take you down!
Stop bringing your hate, will take you down!
Poisoned words from your mouth, will take you down!
Life will take you, life will take you down!
Will take you down!

Will take you down!
