"In The Darkness"

Hey, all you people, come here and listen up
We'll lead you into the light, we'll bring you into the
track

Have no fear, my sisters and my brothers
You will not disappear, you'll live with one another

In the darkness, we'll keep you strong and safe
In the darkness, we'll walk you all the way

And if you wonder where this is gonna end
And if you wonder or just don't understand
Why the world it seems so bleak at times and then you
feel so tired
Stand along, we'll show you the way out
