Oohh, yeah, ooohh

It was christmas mornin'  
Just got out of bed  
Saw an amazing sight  
Was it all just in my head?

Santa clause was dancin'  
He was dacing down  
Presents filled my living room  
Tere were reindeer flyin' 'round

Candy canes and chocolate rainbows  
Ohhhh, this

This ain't no ordinary holiday  
When you're havin' a party  
With santa in the house  
This ain't no ordinary holiday  
When you're sittin' by the fire  
And there's a snow man chillin' out

Over in the kitchen  
Cookies on a plate  
Santa ate them one by one  
Till he got a tummy ache

Rudolph and his reindeer  
Rockin' down the tree  
Santa turned the music up  
Aayin' "c'mon dance with me"

Jingle bells and snowfaced fraila  
Ohhhh, this

This ain't no ordinary holiday  
When you're havin' a party  
With santa in the house  
This ain't no ordinary holiday  
When you're sittin' by the fire

And there's a snow man chillin' out

It's a holiday...  
No ordinary christmas...

When the song was over  
Santa waved goodbye  
In a moment he was gone  
And he flew into the sky

Now i know that santa  
Really is no myth  
Never be another day  
Like the santa 25th

Ohhhh...

This ain't no ordinary holiday  
When you're havin' a party  
With santa in the house  
This ain't no ordinary holiday  
When you're sittin' by the fire  
And there's a snow man chillin' out  
(ohhh...)

This ain't no ordinary holiday...  
(Ordinary holiday, oh, yeah, that's what i'm talkin'  
'bout)  
This ain't no ordinary holiday...  
(Oh, can you hear me say christmas? christmas, yeah,  
yeah, yeah, yeah)  
This ain't no ordinary holiday...  
(Holiday...)  
This ain't no ordinary holiday...  
This ain't no ordinary holiday...
