Hey
Yay
Love always finds a way
Every single time
Once we learn to trust our heart
And look inside, it feels like
Now, we see who we are
In a different light
We're not so far apart and anything is possible

With all the differences, we're stronger here
Now the truth has been discovered, oh yeah
After all we've been through, now it's clear
That all of us, we share

One world, one love, one and all
We're a circle together
One world, one heart, one song
Now and forever

Everybody celebrate
Bring on the party, bring on the dance
Time to let the music play
The party never ends
Every guy and every girl
Stand up and shout, say it loud
Everyone around the world, come on and join in

We're gathered here today
Everything is right
Cause when you give from the heart
The things you do come back to you

There to be strong and brave
Not afraid to try
That's when we see who we are
The best of friends and that's when

With all the differences, we're stronger here
Now the truth has been discovered, oh yeah
After all we've been through, now it's clear

We're all, right here, to share

One world, one love, one and all
We're a circle together
One world, one heart, one song
Now and forever

Ooohhhh i never knew that love
Would find a way to bring together both of us
Now inside, i know it's true
Cause what we have is meant to be
You let me be the real me
Together here is where we belong

(dancing)

One world, one love, one and all
We're a circle together
One world, one heart, one song
Now and forever
One world, one love, one and all
We're a circle together
One world, one heart, one song
Now and forever
We're a circle together
Now and forever
One world
