Ready, here we go
(Galleria)
Start the party up
Hit the groove
Celebrate is what we're here to do
(Aqua)
Crank the music
Now's the time
All of us are here tonight
(Dorinda)
Something new with
Move it on
We've been thinking 'bout it all year long
(Chanel)
Got the right moves, cheetah girls
Here we go gonna rock the world

[Chorus:]
Party 'cause you know the future's all yours
Dance till your feet don't touch the floor
Celebrate the day you've waited for
Party like you're ready for so much more
Do it like you know it's never been done
Go a little crazy, have too much fun
Today's the day, come on everyone
The party's just begun

I know you feelin' this
Put your hands up if you feelin' this
I'm feelin it girl
I know you feelin' this
Everybody get up here we go
(Galleria)
Everybody now make some noise
All the girls and all the boys
(Aqua)
Don't you know we got it going on
All together we belong
(Dorinda)
Pump the beat yo
That's the groove

Looking good with a new attitude
(Chanel)
Start the party, up
Time to shine
Cheetahs now we're doing it right
[Chorus]
Party 'cause you know the future's all yours
Dance till your feet don't touch the floor
Celebrate the day you've waited for
Party like you're ready for so much more
Do it like you know it's never been done
Go a little crazy, have too much fun
Today's the day, come on everyone
The party's just begun

Come on
[Bridge]
We can do anything everything we wanna
Finally we get the chance
Everybody wanna celebrate
Let the party never end
Ready for the summer holiday
Anticipate what's ahead
Now we're better than we've ever been
And you know we do it right
Acapella now bring it in
Come on girls, one more time

Chill it out
Break it down
That's the way we do it now
Attitude in the groove
Getting into something new
Say goodbye to yesterday
Future looking good to me
All together raise your hands
Time to party, time to dance

[Chorus]
Party 'cause you know the future's all yours
Dance till your feet don't touch the floor
Celebrate the day you've waited for
Party like you're ready for so much more
Do it like you know it's never been done
Go a little crazy, have too much fun
Today's the day, come on everyone
The party's just begun
