In my life

There is no one, who makes me feel

Like I have felt you

In my life

Changed by a feeling

When drams come through

There right beside you

In my life -

I wont believe

In a world without love

Do you believe

'cos love wont't give up

do you believe

in my life

there is no one, that I feel the sun

to be with you, I've waited so long

so one to receive you

its your heart's stone

no one will break through

in my life
