never let you go
never say goodbye
keep singing the same old song
no matter how hard i try
doing something else with my life
why doesn't anything
ever work out right

trust me
it's harder than you think
keeping it all together
maybe
one day you'll believe me
when i say not forever
i honestly can't do this forever

you always told me
you'd always be around
kept pushing you away
but i couldn't drag you down
didn't think you'd stop pushing back
why didn't i ever
consider that

trust me
it's harder than you think
keeping it all together
maybe
one day you'll believe me
when i say not forever
i honestly can't do this forever

it's harder than you think
keeping it all together
maybe
one day i'll believe me
when i say not forever
i honestly can't do this
forever
