### "Please Sir"

Come to from slumber on bed?  
s soft tundra  
Murky with mourn beside dead uniform  
And I wish and I hope  
and I wish and I hope  
with long drag on me smoke  
and I wish and I hope  
that I'll stalk the corridors once more.

Please, Sir let me return, if only for a term (how I yearn)

It's glee, Sir, with your hot breath upon me (gob  
gurning in fury)

But?

I only winded that lad before he bolted

And?

I only fumbled that lass, besides, I was revolted

So for forgiveness,  
with me boyz as witness,  
Take these chips with cheese  
as an offering of peace
