You rush me into your apartment,  
The glow of your bedroom ahead.  
Your spirit was warm when I touched you,  
We think alike to live alike, yeah.

Breathe in deep for me,  
'Cause I'll be there for you.  
Don't lose sight of me,  
'Cause I watch the old tricks.  
I won't waste my time,  
'Cause I'll be there for you.  
So breathe in deep for me.

You took control, and I like that.  
You know you're so sexy, girl...  
You use it against me, girl.

Breathe in deep for me,  
'Cause I'll be there for you.  
Don't lose sight of me,  
'Cause I watch the old tricks.  
I won't waste my time,  
'Cause I'll be there for you.  
So breathe in deep for me.

You reach for my hands, but you touch my heart.  
You reach for my hands, but you touch my heart.  
You reach for my hands and I fall apart.  
You reach for my hands and you touch my heart.

Breathe in deep for me,  
'Cause I'll be there for you.  
Don't lose sight of me,  
'Cause I watch the old tricks.  
I won't waste my time,  
'Cause I'll be there for you.  
Yeah, so breathe in deep for me.  
I won't waste my time.  
Yeah, so breathe in deep for me!
