Without you
there's no reason for my story
and when I'm with you
I can always act the same
forever, yeah if we're together
We can make it better

You and I
we never get to sleep
we're up all day
we're over worked and underpaid
you and I
were always stuck in repeat
day by day
watching time drift away
as we burn away

Without you
there's no reason for my story
and when I'm with you
I can always act the same
forever, yeah if we're together
We can make it better

You and I
we've never felt so right
(this just might be just what I need,
to get me through the night)
You and I
we're the perfect fit
you've got me hooked
so then i could never quit
I just burn away

Without you

there's no reason for my story
and when I'm with you
I can always act the same
forever, yeah if we're together
We can make it better

oh oh oh-oh oh oh-oh
oh oh oh-oh oh oh-oh

Without you
there's no reason for my story
and when I'm with you
I can always act the same
forever, yeah if we're together
we can make it, we can make it

Without you
there's no reason for my story
and when I'm with you
I can always act the same
forever, yeah if we're together
we can make it, we can make it

Without you
there's no reason for my story
and when I'm with you
I can always act the same
forever, yeah if we're together
We can make it better

oh oh oh-oh oh oh-oh
oh oh oh-oh oh oh-oh
