"Same Shit"

Visit "[Same Shit](#)" on MotoLyrics.com

Wake up to early in the morning
Brush you're teeth
You know what is coming
It's the routine you do it every day
Take a shower no time to play

Same shit, only a different day,
you do the same time to make some changes
So losen up, have the time of your life,
Same shit, only a different day

Late night it's time for dinner
Have a drink
We know what you think
Take your time
Come on take some free time
12 o'clock, on to the next day

every day, you do the same
same shit only a different day

every day you do the same
time to make some changes
