Ready to live ready to die  
Wanting to give, dying to try  
Minds of hate breed dogs of war  
What the fuck are we fighting for

You try to figure out  
What goes on in my mind  
A way to twist the truth  
Make my knowledge blind  
You are not of me  
Maybe blood but not of soul  
My words for your abuse  
War to take the light you toll

Take my eye's where I can't see  
Blind but free from misery

You try to complicate  
The meaning of life  
Your words corrupt  
Your tongue cuts like a knife  
You have found a way to preach  
Lies of hate your heart is cold  
One day it will all come back  
All that's new will then grow old

Institution mind pollution  
Walk among the mass confusion  
Way too late to medicate  
The unborn ones we suffocate  
Humanize to realize  
We seldom stop to see waht dies  
It's all a race to see the face  
Of Mother Earth in our disgrace
