You're seeking redemption, but you can't see the
difference that stands
Between you and me

You could never grasp this life I lead
Built yours up for you to crush it back down
It made me feel guilty to try
But I won't help you build on lies

Watch your running mouth
You'll regret what you say
You've helped deceive me
But you'll suffer today
If I'm now a crime
You are the culprit
Go build yourself a life
On foundations of your bullshit

Dear Deceiver
You've had your way
I hope you burn
I hope you burn

I'll watch you burn to death
I want you dead

Diseased, fucked from behind
Slut, I'll sit and watch you cry
Deceiving, so skeptical
Your misleading face, aimed up down my reticle

Fuck what you think, Fuck that you breathe
Fuck what you feel, YOU MEAN NOTHING TO ME
YOU MEAN NOTHING TO ME

Diseased, fucked from behind
Slut, I'll sit and watch you cry
Deceiving, so skeptical
Your misleading face, aimed up down my reticle
Two fingers just aren't enough
She fucking loves to swallow cum

I laugh as you waste time to redeem
Spaced out, coked up, down on your knees
