I'll take your head
If you ever step here again, you'll be put to your knees
so you can suffer
And beg
Why would I stop now?
Not finished cutting your throat
A hopeless climb; peaking zenith
I am the alpha male and you're just my fucking prey
Slave to get here
Accomplish nothing
A hopeless climb; peaking zenith, all for nothing
We roam the night
If you ever step here again, you'll be put to your knees
so you can suffer
And beg
Why would I stop now?
Not finished cutting your throat
Slave to get here
Accomplish nothing
I slaved to get here
The dark horse is not taking it from me
