Feels like this, when I'm lying
Lego man, without eyes
Record shop, street watch
Cheer him up anymore
I don't lie, my life

Feel depressed when I'm laughing
And my friend, my own head
Seems too small to contain me
Have my thoughts and
Turn away from her sails

I'm telling you
I'm gonna break you down [repeat 4]
Gonna break you down
Gonna break you down
Gonna break you break you down

All messed up, and out of town yeah
I can't see another way
Always trying not to hurt her
I don't know, all the things I say
Don't make any sense

I'm telling you
I'm gonna break you down [repeat 4]
Gonna break you down
Gonna break you down
Gonna break you break you

And I don't know what I want
And I really don't care
'Cause I never met anyone, who knew
Just what they want

I'm gonna break you down [repeat 3]
Gonna break you down
Gonna break you down
Gonna break you break you down
